

James Daniel Holby Templergasse 1 55116 Mainz 0151 / 67888818

Mainz, 23 May 2014

Guten Tag Continental:

Recently one of your employees and close friend, Sven Maurer, showed me an opening on your career portal which I would like to submit my resume for candidacy: **JobID: 269492** [SW Integrator \(m/f\) Embedded Software](#).

I have been a permanent resident of Mainz for the past year now and am searching within Mainz and the surrounding area for a more challenging position as a developer. Currently, I am leading a project here in Rüsselsheim working with local as well as distributed developers to deploy mobile in-vehicle apps for Opel/General Motors.

Along with my international experience I have worked for several of the largest automotive firms (Volkswagen & General Motors) producing web services (PHP) as well as transforming existing sites into mobile friendly/optimized sites (HTML5/CSS3/JS). I find that my skills certainly fit with those of a SW Integrator; while my background has consisted mostly of mobile application development I feel confident that with my educational knowledge of C++/Objective-C, intercultural and automotive experience will allow me to succeed in this position.

I would certainly like to speak more about my skills and hear more about **Continental** in person. I am available for an interview during the week between the hours of 9:00 and 16:00 and am looking to begin on or after July 1st, 2014.

Attached to the email are this Cover Letter as well as my resume. Please feel free to contact me via email at jamesdholby@gmail.com or phone **0151 / 67888818** and I look forward to hearing from you soon.

Grüße/Best,

James Holby
